The Kentucky Tragedy.

SENATOR VOOHIES'S POWERFUL APPEAL FOR THE DEFENSE.

"I am here to show you that the defendant is guilty of no crime either by human or divine law," were the few words of Senator Voohie in commencing his argument to the jury in defense of Congressman Phil. B. Thompson, who shot and killed his wife's cousin.

"In the cold language of the indictment he is classed as a murderer. He is not of the criminal class, but a law-abiding citizen, and, by the help of God, before I get through I'll show you who the murderer is. I'll show you murdered peace at the fireside who struck an assassin's blow, the sanctities of a home!" The Senator appealed to human experience, to Deuteronomy and to the Kentucky code for examples of punishment for the slayer of the seducer of his wife. He then drew an eloquent picture of how and the estimate made upon it. He made reference to the office of the county and town—the first permanent settlement in Kentucky—in which never before had a case of this kind been before the courts, and not one act of crime had been noted in all its history. Having rounded up his appeal to human history in support of what he termed the universal practice of mankind in holding the slayer of a seducer in evidence of the conduct of the defendant. On this line his proposition was that Phil. Thompson had reason to believe the story of the infidelity of his wife, and that the state of his mind was such that he could not control his actions when he met the betrayer of his domestic peace. In the outset of this line of argument the Senator said: "In evidence of the conduct of the defendant, the Senator proceeded to the question of the emotional insanity of the defendant. Shook Industry.

For many years Norway has made shoes. For just how many we are unable to say but probably the business has been carried on to some extent since the days of "the first settler." It has not been until recently that the shoe business has become one of the leading industries.

Messrs. Jordan and Kimball of Harrison are the most extensive manufacturers of shoes in this section of the State. Last season they run five shops, two in this village, one each in Harrison, Naples and Casco. The last three mentioned shops are operated only during the open season of the Lake over which the shoes is transported to Portland via the P. and O. R. R. In Norway the two shops are run the year round and transportation is made over the G. & N. R. to Portland. All the shoes made in the village are sent to the market and are sold to Geo. S. Hunt & Co. of Portland.

In this village eight coopers are constantly employed on an average pay roll of \$30.00 per week. Some six of the loads of shoes are shipped per month from this depot. The past year about \$1200.00 has been paid for binders alone. Among those who furnish binders are Messrs. Richardson, C. B. Cummings, Charles Partridge and the Palmer Co. of this town. The amount of money paid for the lumber, the cutting, hauling, sawing, trucking, etc. is a large sum, and will not fall short of \$200,000.00 per year. This money is brought into town and put in circulation by this firm and is a great factor in the business interests of our village.

Mr. Albion Kimball, the principal business man in the shoe business here and at the other shops. He knows the business having grown up in it, and is now the head of a large and successful industry of our town.

This firm have some 2,000 cords of short lumber in their yards and they expect to make some 15,000 shoes at their other shops some 10,000. They also turn out some 200,000 spool strips which are delivered in Portland and from there shipped to Scotland. Messrs. Jordan and Kimball own several valuable wood lots on which they cut considerable quantities of timber and the balance is bought of whoever may bring it in. They also deal in hoop poles of the 14, 12 and 8 feet variety of ash and oak.

One of the pleasing features in the shoe business in this town is that Mr. Kimball always pays promptly, not having missed paying his help weekly for the five years he has been in business, and all his other bills—and there are many of them—are met in the same prompt manner.

When we take into consideration that this firm does nearly as much business out of this town as they do in it, the aggregate amount of money put in circulation per year by this firm is not far from \$50,000.

"Age Quod Agis" '83.

The graduating exercises of the Norway High School occurred in Norway Hall Thursday evening of last week. There were ten members of the class of '83, all of whom took part in the exercises. Music was furnished by the Norway orchestra. The well sustained parts were highly creditable to the school. The hall was crowded, thus showing that a good degree of interest is manifested by this community in the schools. The teachers, committee, and other prominent citizens occupied positions on the stage. The stage, as during the Prize speaking was beautifully decorated with flowers. Those taking part were presented the usual exquisite graduating bouquets, notwithstanding the earliness of the season made cut flowers rather scarce. The following is the program:

1. Opening Address—Purpose. Rev. W. W. Hooper.
2. Essay—Pearls lie beneath the waves. Arthur F. French.
3. Declaration—Toussaint. Merrie Starbird.
4. History of Class. Nathan Denison.
5. Essay—Higher aims in life. Nellie Hayden.
6. Declaration—The burning of Chicago. Carrie Farrow.
7. Essay—Spirit of Discovery. Herbert L. Russell.
8. Class Poem—Les Feuilles d'Or. Belle H. Whitcomb.
9. Class Prophecy—What I saw and heard through an invisible film. Nellie L. Andrews.
10. Closing Address—Nathan Denison.

The presentation of diplomas and address to the class was made by Prof. O. W. Collins.

After the exercises the class held a reception and cake and ice-cream were served, all of which closed with a social dance to the fine music of the orchestra.

CLASS ODE.
BY A. F. FRENCH.
We've worked and toiled together in the happy days gone by.
We've labored to enrich our minds with knowledge and to make our duty we can see.
And though our time of parting is now very nigh,
Yet we'll go onward to victory.
Hurrah! Hurrah! A band of ten are we.
Hurrah! Hurrah! for the class of '83.
As long as life is given and our duty we can see,
We'll work for good and education.
'Tis pleasant to retrace the days that now are in the past;
'Tis sad to think the pleasures sweet have found an end at last.
We'll look to him to give us serenely to the last,
And hope to meet again in heaven.
And now we'll let the past be treasured firmly in the mind;
And the future days that duty we may find.
We hope to do with joy and pleasure.
Farewell! Farewell! the parting time has come.
Farewell! Farewell! the course of life we'll run.
Each day we hope to see some worthy action done.
And thus we'll wear a crown of glory.

The June number of *Baltore's Magazine* contains a liberal installment of "The Belle of Australia," by Wm. H. Thomas. In this issue Mike, the Irish stockman, has a laughable encounter with an old man kangaroo, in the night time. A new character is introduced, in the shape of a Quaker, who is a mysterious individual. A Dutch girl is also created. Besides "The Belle," are many stories, engravings and poems. Address Thomas & Talbot, 25 Hawsley St., Boston, Mass.

Peterson's Magazine for June is already on our table. The principal feature, "Miss Soft-Eyes," is an exquisite affair, illustrating a charming story. The colored steel-fashion is very beautiful. The engravings of fashions are numerous and choice. The June volume beginning with the July number will be commenced a copyright novel, "A Fifth Avenue Romance." The price is two dollars a year; reduction to clubs. 306 Chestnut Street, Philadelphia, Pa.

THE WANDERER.

PARIS-Whittemore District.
A meeting was held at the school house last Sunday at four o'clock. Rev. Giddeon Perkins, (he is over eighty years old) delivered an able discourse, "Whether it is right, is both logical and moral." The intention is to hold meetings at the same place at the same hour through warm weather. When there is no one present to preach it will be conducted as a prayer meeting.

A mistake occurred in a former No. of the Advertiser speaking of O. W. Cook having a Beatty organ. His recollection was given North Paris instead of South Paris. A gentleman who wished to see the organ went to North Paris but was told that it was not there. He then went to South Paris. He however found the organ at North Paris owned by Mr. Childs.

KEEPA FALLS.

This is a thriving, prosperous village, and well it may be, there is one of the best water privileges here that can be found in the state of Maine, and there are some very enterprising, energetic men who reside here, and they are spending their time and money making improvements in various ways, and giving employment to many of the inhabitants.

A most painful scene was witnessed in our streets a few days since. A bright little boy 8 years of age being abandoned by both his parents, who are both well and abundantly able to provide for him, and amid tears and pleadings was taken by force and carried to the Poor House. Some who looked upon this act were affected even to weeping. But there is one comforting feature in the matter. We are sure he will receive nothing but kind treatment from the good lady who presides over the household. THE WANDERER.

Things look more business like in the village. Watson's mill sings a lively tune now and E. W. Ayer is fitting his mill for the wool so soon to come in. He is making such repairs as will enable him to give you the best of rolls, such as will make the spinner smile all day.

Elbridge Stone of Sweden has sold his big horse to parties at Bridgton for \$225.

The S. S. Convention at the M. E. Church was a failure on account of the severe rain. Though sorry to lose the convention we were glad to get the rain.

We have noticed lately an account of long life and usefulness of horses in Bolster's Mills and in some other items. In one place a successive horse had served a man thirty years, and in another two had served thirty-six years. We have a man up here in Waterford who is driving a horse which his predecessor has served that man's family over forty years. But if we wished to tell a large story we should speak of the case of Charles Perry's horse. This horse, now 33 years old, and its mother before it has served its master for over 50 years, and to all appearances is good for several more.

Rev. J. S. Richards closes his pastorate with the North-Waterford church next Sabbath.

Mr. Eugene Nelson takes the cake on gardens. Corn, wheat and some other things are up quite high.

Some one is poisoning the dogs at Waterford. Several have died lately and others are sick. We wish to know we do not like to see so many dogs around a village, especially female dogs, but we do not hold to this cowardly way of getting rid of them.

Mr. Thurston has a boom across the bridge to prevent any of his drives going out.

Mr. Henry Abbott recently cut a basswood tree 4 feet 34 inches in diameter at the butt. Fifty years ago it was a small sprout and his father trimmed it up with his jack-knife, which goes to show that the basswood is the most rapid growing of trees.

Last Friday was the hottest day of the season.

Sylvanus Cobb, Jr., our late town-
man, once immortalized Dr. Rodolphus
Young in the columns of the *New York*
Leader. Then the Dr. fell victim to a
practical joke in a bear hunt, and fierce
beast proved to be a domesticated bear
of the gentlest sort, which nearly fright-
ened the amiable Doctor out of his wits.
Among the latest laurels won and worn
by the Doctor is a valuable new hat.
He came into possession of it by the
way of an exchange. He recently vis-
ited the house of one of the village par-
sons to engage in a game of chess, wear-
ing his accustomed every-day hat, which
had faded the sunshine and the storms
of many a varied season and the
wretchedly dilapidated and ominous
wreath of never again accompany him
and extraneous advent, even
including his fright from the Gorbam's
tame bear. This was the same hat that
he thoughtlessly laid in the parson's
hallway. It was the historic headpiece
which could never again accompany him
and extraneous advent, even
including his fright from the Gorbam's
tame bear. This was the same hat that
he thoughtlessly laid in the parson's
hallway.

As a matter of general news, it has
been discovered that New York is
a large and booming city, fine,
and the latest laurels won and worn
by the Doctor is a valuable new hat.
He came into possession of it by the
way of an exchange. He recently vis-
ited the house of one of the village par-
sons to engage in a game of chess, wear-
ing his accustomed every-day hat, which

A small sum of money was lost by
a friend of ours, a year ago last winter.
Before leaving the house one morning,
he took from his vest pocket a small
roll of bills, and after handing one to
his wife, returned the remainder (as he
supposed) to the addressable receptacle for
safe keeping. On arriving at his place
of business, he found the roll of bills
missing. In waiting to pay a small bill
for advertising, he felt for the bills to
make change, but our friend soon dis-
covered the money was gone. The wind
was blowing a gale at the time, and
after days of search and mourning, the
loser succeeded in gaining crumbs of
comfort from the possibility that some
worthy person near the borders of Nova
Scotia might pick it up. A few days
ago, his wife washed an old pair of his
pants to make over for the boy. Tues-
day of this week, young America got
inside of them and left the house for
business. Arriving at the shop, he be-
came jubilant over the discovery of a
watch-pocket! He dove his fingers to
the bottom and fished out four dollars.
The question now to be settled between
father and son—who does the money
belong to?

As a matter of general news, it has
been discovered that New York is
a large and booming city, fine,
and the latest laurels won and worn
by the Doctor is a valuable new hat.
He came into possession of it by the
way of an exchange. He recently vis-

ing his accustomed every-day hat, which
had faded the sunshine and the storms
